And so that's how we have come up with with our belief that it is going to lower voter turnout. And people who are voting today, because

45 47 there," would that include mail-in ballot fraud? 1 consideration of this bill or any other voter ID bill, 1 2 has there been any evidence of any voter impersonation 2 A. I think that there have been allegations over 3 the years that there have been some mail-in ballots 3 4 A. Well, I'm trying to remember the debate, and I where there was fraud, where there was suspected fraud 4 5 5 won't say that I can remember it precisely, but I think Q. But it's not the Caucus's contention that there 6 the conclusion was that we're -- while there might have 6 is no such thing as in-person voter fraud or voter 7 7 been some cases of voter fraud that, by and large, it impersonation; is that right? 8 did not appear that those cases were based on somebody 8 A. No, not -- it's not a zero game. impersonating somebody. Which is, you know, I think 9 Q. Does the Caucus contend that Senate Bill 14 10 largely what this bill tries to fix, is making sure that 10 will prevent Latino Texans from voting or lower Latino 11 the person that, you know, presents themselves as a 11 12 certain person is that person. 12 A. I think the Caucus is concerned that this bill 13 So in the debate, that was one of the key 13 would prevent a lot of people from voting, including --14 questions that members of the Caucus and other members the people that I'm talking about at the town hall 14 meeting that I went to in Cedar Springs with a couple of 15 continued to ask, do we believe based on whatever 15 16 16 evidence we have that this has been occurring, that this other state reps happen to be primarily Anglo, and it 17 is a big problem in Texas? And I don't believe that I 17 was the Anglo women who stood up and said that they 18 recall a lot of evidence in that regard. You know, if I 18 weren't going to be able to vote either. You know, 19 -- I would say that in a state with 26, almost 26 19 because their drivers license said this and their voter 20 million people, and I don't know how many of those are 20 ID said that. And so they had a question. 21 voters off the top of my head, but you know, I would 21 So anytime anybody is going be denied the 22 think that you would be talking about something, you 22 right to vote, we're concerned about that. But the 23 know, in -- you would be talking about some pretty large 23 primary concern of the -- I think of the Texas 24 numbers for that to be an issue. 24 Legislative Black Caucus in taking whatever action it 25 Q. Does the Caucus contend that there is no 25 took, was to two speak to -- speak for those people that 46 48 1 in-person voter fraud in Texas? 1 we represent, because that's what they expect us to do, 2 A. I don't know that that's the Caucus's 2 to come here and to voice their concerns and their 3 contention. But I will say this. I will say it is the 3 issues. So the chairperson would be the person to speak 4 Caucus's belief that with fraudulent votes, this is not 4 to that, I guess, absolutely, but in my case, speaking 5 an area where we have evidence as a state, based on the 5 for the Caucus and being in those meetings, our concerns 6 6 debates on the Floor, that we have a lot of were everybody overall, but certainly African 7 activity. Now, is that zero? No. I'm not saying it's 7 Americans. 8 8 And you know, there's a college in my zero. 9 9 But I'm saying from the debate on the district that's a small historically Black college. 10 Floor, and I'm sure that the persons who came with this 10 Many of those students don't have government ID because they don't have, you know, they don't have a driver's 11 bill were armed with the best evidence that they could 11 12 12 get so as to convince their colleagues that this was the license. They don't travel out of the country so, you 13 right thing to do. And obviously, they were able to 13 know, they don't have a passport. Their student ID 14 convince a number of people that this was the right 14 won't help them. So it's a major concern. How do these 15 thing to do. But it wasn't based, from my recollection, 15 students -- I mean, what are they going to -- it was a 16 that our knowing that, oh, yeah, a couple of hundred 16 major concern that this created another barrier, and if 17 people did this in the last year and here's who they 17 you don't call it a barrier, at least you have to say 18 18 were and here's what they did. That didn't happen. that for some people there's at least another step that 19 19 There's, you know, yes, there -- from now you have to take in order to vote. 20 20 until the end of the time, end of time, I would suspect And our thing is about removing barriers 21 21 that there's going to be some attempt at voter fraud. as best we can. And at the same time, I don't want 22 22 But the Caucus belief was that this bill doesn't get at anybody to vote who shouldn't be voting. But I also that. This bill is basically about impersonation and 23 don't want anybody who should be voting to have to climb 23 24 doesn't get to the issues that may be out there. 24 some mountain that they shouldn't have to climb. 25 25 Q. the bottle made a noise, so I didn't hear the whole thing.

- Q. Of course. Does the Caucus believe that poor or indigent voters are more likely than average to lack a form of ID required by SB 14?
- A. Okay. That sounds like the same question that I just answered. Do we believe that elderly African Americans are more likely to not be in possession of photo ID?
- Q. Well, this one is: Does the Caucus believe that poor or indigent voters, regardless of age, would be less likely to have the ID required by SB 14?
- A. Gee, you know what? I -- I'm not sure that the Caucus really has a position on that.
- Q. Does the Caucus contend that disabled voters are less likely than average to have the identification required by SB 14?

MR. TANNER: If I could interject with an objection as to the form. I think we're, again, we're getting back to the level of formality in the Caucus and how much the Caucus is an institution, an unstructured institution, takes positions that are separate from the legal aspect of the position, and whether they take positions as a group or have taken. I think the witness has been very forthcoming in terms of providing the

Q. Does the Caucus contend that rural voters are less likely than average to possess the ID required by SB 14?

A. Speaking for the Caucus, the Caucus is -- has been very concerned about African American voters in rural areas and that voter turnout and the fact that we need to do what we can to make sure that those people are -- have an opportunity to be engaged. I think I would have to -- I would have to leave it there.

So, yeah, we do -- we have some concern about rural voters, and particularly those -- those rural voters who happen to be African American. Because, for the most part, African American legislators that can be accessed easily by African American constituents are folks in large cities. In the rural areas, we -- there is a, you know, a -- some representation in some of the rural areas but not that much. And so, yeah, there is -- there is a real concern about the African Americans and their ability to vote in rural areas.

And a lot of that has to do with, I know you -- we just coming back to history. There are places in the state that history reflects that it has not been very good for African Americans who want to vote. And those areas are -- I don't want to say largely rural,

general information about the sense of the Caucus, and I'm sure will continue to do so. But again, we're presuming a level of formality and structure that has not been established by the questions so far.

MR. FREDERICK: Okay. Well, I mean, the basis of these questions is that the Caucus as a group has intervened and answered in this lawsuit, so that's -- that's the only basis for my questions directed at the Caucus. And I would contend that's a sufficient basis, because the Caucus has actually appeared in the lawsuit. So, I mean, that's the only way that I know how to answer the question -- or to phrase these questions.

MR. TANNER: All right. Well, I was just adding that caveat to it.

MR. FREDERICK: Okay.

MR. TANNER: And to clarify the nature of -- I understand the limitations on how you can ask questions and how the witness can respond.

Q. (By Mr. Frederick) Let me reask the question.

Does the Caucus contend that disabled voters are less likely than average to possess the identification required by SB 14?

A. I'm not sure that the Caucus has taken a position on that.

but certainly in rural areas, there's been a problem historically.

- Q. Does the Caucus believe that an African American voter in a rural area would be less likely than other voters, say Anglo or Hispanic voters, in the same area to have an ID required by SB 14?
- A. I'm not sure that they -- they have taken -- I'm not sure that the Caucus has taken a position on that
- Q. Okay. Are you aware or is the Caucus aware of any evidence that an African American in a rural area would be less likely than a Hispanic or Anglo voter in the same area to have the required ID under SB 14?
- A. I don't think the Caucus has any facts, factual evidence on that. They may have more anecdotal kind of information.
- Q. Are you aware of any specific anecdotal information about whether African Americans in rural areas would have the ID required by SB 14?
- A. Not directly, no, not directly. Just again, I mean, you're asking for -- I mean, I can't -- is it out there? Yes. Can I pinpoint it to a person and a place? I can't. But anecdotally, I will say yes, it's that kind of feeling exists, that kind of thought pattern exists.

57 59 1 Q. Can you identify kind of how or by whom that 1 So I think in a general broad sense kind 2 2 thought has been expressed to the Caucus, anecdotally or of way because we know where wealth is and where it 3 otherwise? 3 isn't, it would seem to me that -- or would seem to us 4 A. Well, I think would it have come through some 4 that African Americans would be more at a disadvantage 5 of our discussions about how to better engage African 5 Q. Is there anything -- is there anything besides 6 Americans in some of the rural areas, particularly, I 6 the disparity in wealth --7 7 would say in some of the East Texas areas where the A. Uh-huh. 8 voter turnout doesn't seem to be, you know, what it 8 Q. -- that would put African Americans at a 9 could be, what the potential is. And I think that whole 9 disadvantage related to getting one of the required 10 thought pattern of the rurals not -- of the rurals being 10 forms of ID under SB 14? 11 less likely to possess this has to do with perhaps 11 A. Well, I don't know. I'm not -- I'm going to 12 occupations even, you know, largely agricultural in a 12 speak, you know, the Caucus and as a member of the 13 13 lot of cases and so forth, and maybe less likely to have Caucus, I'm going to speak as an individual, but one of 14 some of these pieces of -- some of these IDs. 14 the things that I've worked with a lot with African 15 15 Americans, older and in rural areas, is that many of Q. But you're not aware of specific --16 16 A. No, I'm not. them -- I won't say many, but I'm going to say a number 17 17 Q. -- information? of them who have come to our offices that we work with 18 18 A. No, I'm not. never had birth certificates, because they were 19 19 Q. Does the Caucus believe that poor or indigent delivered by midwives. And those midwives somehow or 20 20 voters are less likely to be able to obtain one of the another -- I mean, I'm talking about a lot of years ago, 21 21 IDs required by SB 14? didn't make it to wherever they needed to make it to, to 22 A. Less likely from the standpoint of their being 22 register, so I can't tell you -- we've had to counsel 23 able to go and get the transportation to a site where 23 and work with and direct a number of elderly people who 24 they can get a free ID. And also taking into 24 did not have birth certificates, so and had to get what 25 consideration that with the Department of Public Safety, 25 is called a "delayed birth certificate," so I think, you 58 60 I'm pretty sure we don't have a Department of Public 1 know, just kind of based on that, the same thing 1 2 Safety in every one of our counties in this state. I 2 3 3 Q. And in your experience with what you were just could be wrong about that, but you know, just trying to 4 4 talking about, is it your understanding that people who recall as best I can. 5 5 might have been birthed with a midwife and might not I mean, if you were to ask just people in 6 6 general whether or not we need more DPS sites, I think have a birth certificate, are those people more likely 7 7 the answer to that would be -- would be yes. But to be African American? 8 8 A. Well, what I can say is that the folks that we certainly if you don't have an automobile and you don't 9 9 have transportation and the only place you can go and have been asked to work with from our office have all 10 10 been African Americans. I mean, it's -- you know, and get this ID is 35 or 40 miles away, I think the 11 11 likelihood of you being -- some people being up to doing you have to go back and try to help them try to figure 12 that is not that great. 12 out how to research the census, how to get something 13 Q. And would the burden that that would place on a 13 from their church, how to get a Bible, you know, how to 14 voter, the problem of transportation, access to a DPS, 14 get an insurance policy, how to do -- you know, because 15 would that be any different for an African American 15 the documentation apparently doesn't exist for these 16 voter or a Hispanic voter or an Anglo voter? 16 people. And I don't know how they got that way, except 17 A. Well, yes, Mr. Frederick, because we do have 17 that most of them that have contacted us have said that 18 18 national statistics as well as state statistics that they were delivered by a midwife, and I dare say, in 19 19 really show that African American wealth is nowhere near some cases, nobody at all, just family delivered. 20 that of Anglo wealth. And so what that transforms into 20 So when we speak about the elderly, I 21 21 is that they may, you know, a lot of these people may think we have to take those kinds of things into 22 not even have automobiles to be able to, you know, live 22 consideration, and I think it's a whole separate set of in a rural area or some place and be able to have a car 23 issues from the very young. So I think the elderly are 23 24 to go 40 miles if they need to, to get to a site where 24 disproportionately affected if they're African 25 they can do it. Americans. The young are disproportionately affected.

61 63 1 That's -- that was my position. I hope the Caucus is 1 we exist to make sure that African Americans have equa 2 2 opportunities in this state. And, but at the same time, okay with that. 3 Q. Are you aware of any studies or statistics that 3 we understand that African Americans cannot advance 4 4 while, you know, everybody else that's disadvantaged is show that the people who would lack a birth certificate 5 5 or have a midwife birth would be disproportionately standing still. So everybody has to move together. 6 6 African American? But you know, we -- our agenda really is 7 7 one that is African Americans. But we do believe, I A. I think in the old days that's true. I -- you 8 know, and that's why I say the elderly, because I think 8 think I can say on behalf of the Caucus, that we believe 9 9 we have a whole new -- another game now. I mean, the that Hispanics are going to be disproportionately 10 10 whole midwife thing is popular across the board, and adversely affected by Senate Bill 14 as will African 11 it's pretty much regulated, and folks have to do what 11 12 they have to do. And those kind of regulations did not 12 Q. Since we've been talking about this, I think 13 13 we've identified a couple of factors that would be I exist back in those days. And in rural areas, you might not have been even close to any doctors. You might have think you said an extra step that would be required to 14 14 get an ID, and I think one of those was you might have 15 been miles away from a doctor. 15 to just go to the DPS; is that right? 16 Q. Do you have a sense based on your experience 16 17 with that issue of how -- where the age cutoff is for 17 A. Uh-huh. 18 18 people who would have that kind of problem? Q. And then one -- another might be you might not have a birth certificate or whatever documentation; is 19 A. Well, I think they're -- quite frankly, I think 19 20 they're pretty old. You know, I mean, we're not talking 20 21 A. Uh-huh. Yes. 21 about folks in their fifties. We may not even be 22 talking about people, you know, up to 65. I mean, we 22 Q. Another might be if you had to pay money to 23 may be talking about, you know, the -- well, the people 23 get, you know, either a driver's license or a birth 24 24 certificate, that would be an extra step; is that right? that we've -- that we've helped, they have been in their 25 sixties, because many of them, quite frankly, are trying 25 A. Yes. 62 64 Q. And are there any other -- are there any other 1 to go over to the -- where you apply for Social 2 Security, and didn't have proper documentation to apply 2 specific burdens that the Caucus contends SB 14 would 3 3 have on people? for Social Security. So, you know, that -- that would 4 A. Gee, other than the things that -- that we have 4 say you were -- you were, you know, sixty-ish, I would 5 -- that I have articulated, for us, having to take an 5 say. 6 extra step and not being able to take that extra step is 6 Q. Does the Caucus contend that voters in the 7 7 huge. rural areas would be less likely than urban or suburban 8 voters to be able to get one of the IDs required by SB 8 Q. Uh-huh. 9 9 A. And it's a reason to be concerned, because we 10 10 want people to -- we want people who are eligible to A. I think the answer to that would be yes, you vote, to vote. And it's been such a long difficult ride 11 know, basically, due to the availability of a DPS 11 12 12 site. DPS sites are more available in urban areas, I for African Americans. I mean, when people have died 13 13 because they simply wanted to vote, it takes years to 14 Q. Does the Caucus contend that with respect to 14 turn around that kind of thinking and to get people to 15 availability of DPS sites and transportation to get ID, 15 understanding, you know, that, yeah, it's okay now. And 16 does the Caucus contend that African Americans would 16 then you -- so just the mere fact that you're putting in be -- rural African Americans would be affected 17 another step that says you've got to have this -- this 17 18 18 differently than Anglo or Hispanic rural residents? is the only thing that you can use, it requires a whole A. I suspect that Hispanics would be affected as 19 19 new education. 20 20 well. And again, I want to -- you know, the Caucus is Particularly for the elderly, and you 21 21 concerned about everybody in the state. But the Caucus know, I don't know that our state is going to be willing has a primary concern for African Americans. And so, 22 to do what is necessary to educate these people. I 23 mean, we need some TV -- if this were to go into effect, 23 generally, as loose as our organization is in terms of 24 having, you know, structure that says this, this and 24 we need some TV PSAs and all kinds of education to make 25 this, we're concerned about everybody, but we're -- but this -- to get anywhere near a good result. And I just

67 1 don't think you can get a good result by asking people 1 vote, whether that history would have any effect or to make -- make this -- to take this -- this extra step 2 2 impose any burden on an African American voter who, you in terms of being able to identify themselves as being 3 know, is not indigent, is not in a rural area, you know, 4 4 doesn't have any of the kind -- you know, is not eligible to vote. 5 5 elderly, who doesn't have any of, you know, the burdens Q. So if you, hypothetically, if you had an 6 6 that we've been talking about, is it -- I'm just trying African American voter and an Anglo voter who were, you 7 7 know, lived in the same place, had the same to understand how the history would play into the burden 8 socioeconomic status, would there be any extra burden or 8 on a specific voter. 9 9 A. How the history would play into the burden on any other steps that the African American individual 10 10 would have to take to comply with SB 14? -- we're all creatures of our circumstances, our 11 A. I think you would -- I would have to answer 11 experiences, our backgrounds, and I guess that's one of 12 12 those things that is not easily articulated, but it is that by, you know, we've got to take into consideration 13 something that has to be contended with and taken into 13 all the things -- did you say economically? Tell me --14 give me your question again. 14 consideration. 15 15 And for African Americans, we know that it Q. Of course. Of course. If we had, let's say 16 16 hypothetically, we've got an Anglo voter, an African is very real to be able to get the voting participation 17 rate up among African Americans to where the voter 17 American voter, say they're the same age, live in the 18 18 same place, same neighborhood, and they have the same participation rate is across the board. And so we have 19 19 you know, socioeconomic status. to look at all of these things, I think, that may have a 20 20 A. Uh-huh. chilling effect. And I think adding this extra step 21 21 Q. Is there anything, any extra burden or step really does -- really does do that, and it's at least 22 22 that the African American voter would have to go through real for those people who have to -- who have to deal 23 23 under SB 14 as opposed to the Anglo voter? with it. 24 24 A. Well, even though I'm older than you, that I mean, in the case of two people -- two 25 aside, you and I would be dealing with the same set of 25 groups who are similarly situated, middle income, this 66 68 1 circumstances. We wouldn't have to do anything 1 and that and the other thing, so they got a car, can get 2 differently. The only difference would be that I have a 2 to the driver's license -- to the Department of Public 3 history of not being able to vote. And unfortunately, 3 Safety, to get the -- what -- their driver's license or 4 we can't leave that baggage behind. And so do I have to 4 whatever they need, they've got a birth certificate, 5 take another step? A step more than you would have to 5 this and that. You know, that's -- that's pretty even, 6 6 take? No. but that's not necessarily most of the world. 7 7 But I come -- I mean, the only reason we Q. Uh-huh. 8 8 have the Voter Rights Act is because of the history of A. That's really not most of the world. I mean, 9 9 voting in our state, and we can't minimize that. So you you've got such a high unemployment rate, you know, for 10 and I would be similarly situated. You know, you 10 African American youth, for instance. And if you've got 11 wouldn't have -- I wouldn't have to do anything more 11 a choice between, you know, going to try to find 12 than you would do, because you know, it would just be a 12 yourself a job and going to try to get this document, 13 -- the same, the effort would be the same. But I think 13 which one are you going to do? 14 that we -- we really cannot minimize the historical 14 I mean, yeah, there are all kinds of 15 piece of this and how we got here and why we're even 15 barriers that come in those kinds of circumstances that 16 grappling with this. 16 are not easily articulated, but I think the fact that 17 Q. And I understand that. I guess what -- and 17 we're doing what we're doing brings all of that into 18 18 this is what I'm trying to figure out. It's just I consideration. Because yeah, there are a lot of 19 19 think a piece of all of this. barriers for people, not for you and I. But one of the 20 20 A. Yeah. things that I try to do in the legislature is -- and I'm 21 Q. And it's the effect that just the specific 21 on record as saying this many times from the mic, "We 22 22 requirements of SB 14 will have on -- on voters, and ought not to be making laws for people who sit in this 23 it's what I'm trying to get at is whether -- is whether 23 chamber, because we're special. We're privileged." 24 24 SB 14, because of the history that you've been talking And so what we're talking about is dealing 25 about, just in terms of availability of ID or ability to with those people who are not as privileged as we

69 71 are. I mean, you and I are on the same level, but 1 A. It's just our House Research Organization. 2 unfortunately that doesn't exist for everybody. And I 2 Q. Oh, it's the HRO report on SB 14? think we believe that this is -- this is an extra step, 3 A. Yeah, that goes with SB 14. 4 and any additional step will have a negative effect on 4 Q. Okay. 5 African Americans if it's one that requires additional 5 A. Just made it easy for me to look up. 6 resources in terms of financial resources to get to the Q. Of course. 7 DPS. If you had to buy a birth certificate, which might 7 A. So I would know what I was talking about. 8 require another visit to city hall. Or if you don't 8 Q. Does the Caucus know how many Texas registered live -- if you were born someplace other than the city 9 voters lack one of the IDs required by SB 14? 10 in which you live, that's a whole another set of 10 A. We do not. 11 circumstances. If you're from Texas, it's dealing with 11 Q. Can -- can you, speaking for the Caucus, 12 Austin. If you're from outside of the state, it's 12 identify any Texas registered voter who does not have one of the IDs required by SB 14? 13 dealing with some other capital. And so there are a lot 13 Can we identify them? of additional things that go into making what seems like 14 15 Q. Uh-huh. 15 one easy step. Q. But to the extent that -- to the extent that 16 A. I can't give you the names right now, but we --16 I have been in some -- had some meetings where people 17 any voter, you know, say they have a driver's license 17 18 that's current -stood up and said they didn't. 18 Q. You don't know what their names are? 19 A. Uh-huh. 19 Q. -- SB 14 wouldn't impose a different burden on 20 20 21 21 a voter if he or she happened to be African American, Q. Do you know if their names were ever recorded 22 Anglo or Hispanic or Asian American, if they actually 22 or written down anywhere? 23 had a driver's license; is that right? 23 A. Possibly. I'm not -- I'm going to say no, 24 Yes, that's right. And that's why I brought my 24 because you know, basically, these -- these were notes so I could just be sure what the bill says. So 25 meetings where we were trying to say, "Well, we got to 70 72 these are -- you know, got that section of the bill, you figure out a way to fix that probably before the bill 1 2 know, printed, but you know. No. I mean, to the -- to 2 was done," and whatever, but was completed. just -- well, I thought I had that so I could just move 3 Q. Did the Caucus -- and forgive me if I've asked right in there and see it. But no, I mean, if you've you this already, did the Caucus conduct any study of 4 got that, that documentation, then it's -- it's no 5 5 photo ID possession by Texas voters? 6 different. 6 A. Not that I'm aware of. 7 Q. To your knowledge, is the Caucus -- does it 7 Q. Well, let me ask you some questions about who 8 has documentation. And by the way, I don't mean to stop 8 know, say, the levels of photo ID possession by various 9 9 you, if you're still looking for something. groups of voters in Texas, and what I mean is, does the 10 10 A. No, no, I found it. I was just looking at what Caucus know the percentage of African American 11 11 we can use now, you know, all these -- a sufficient registered voters in Texas who have one of the required 12 amount of -- I would think, of pieces of identification 12 IDs under SB 14? 13 versus just a driver's license, just the military ID, 13 A. Factually, we don't. I can tell you that I 14 citizenship certificate, U.S. passport. 14 think that the Caucus believes that African Americans 15 And I will tell you that I was -- well, 15 are less likely to have had a concealed weapon permit. 16 anyway. Yeah. So, I mean, a lot of people don't have a 16 Q. Uh-huh. 17 passport. If they don't travel out of the country, they 17 A. Which is one of the documents that would be 18 18 might not have a passport. Some of them haven't been to acceptable. I -- that would be something that would be 19 19 the military. I don't know where they would get the easy to get, but I suspect -- or it might not, but I can 20 20 U.S. citizenship certificate. So they're pretty much tell you that on that one particular document, the 21 21 going to be dealing with, if they haven't been to the Caucus certainly anecdotally believes that there would 22 military, they're going to be dealing with a driver's 22 be far fewer African Americans who would possess that 23 license or a concealed handgun license. 23 document. 24 Q. Can you tell me, I notice you're referring to a 24 Q. Does the Caucus have a specific belief about, 25 document, what document is that? you know, the different levels of possession of any

73 75 other of the documents listed in SB 14? We both probably have birth certificates. 1 I do. 2 2 A. I -- I don't believe so. 3 MR. TANNER: Just -- never mind. 3 And I think we -- we cannot -- we cannot 4 4 discount the fact that the whole socioeconomic deal has A. I don't believe so. 5 5 Q. (By Mr. Frederick) All right. an impact on people. It has a -- depending where you A. I -- you know, I don't -- you know, the 6 are in that, you may not be -- you might not have easy 7 driver's license or the passport, again, you would have 7 access to some of these documents. 8 to deal with anecdotal. We don't have any statistics. 8 So, and then -- I mean, it just probably 9 9 I mean, I would suspect that the passport would be one. needs somebody else to talk about this, but even when 10 10 I mean, if you're not traveling internationally, I don't you talk about, you know, the concealed handgun permits 11 quite know what else you do with passports. So "I don't 11 unfortunately in Texas and throughout this country, for 12 know" I guess is the real answer. 12 that -- for that matter, I mean, we've got so many young 13 men who have been somehow or another caught up in the 13 Q. We've been talking about it, so I'll just ask 14 14 you: Do you have -- do you have a driver's license, a criminal justice system, some rightly, some wrongly, 15 current Texas driver's license? 15 we've seen by the exonerations. And so all of those 16 16 A. I do. things impact who has a concealed weapon permit and who 17 17 Q. Are there -- are there other members of your doesn't. So there are lots of factors out there that would cause some people to be more likely to have these 18 18 household who are voting age? 19 19 A. Yes. And Mr. Frederick, so we don't have to go documents that are acceptable as identification at the 20 20 down that line, again, everybody in my family has voting booth that just don't come to the surface 21 21 whatever kind of ID is his. But I think I just said, immediately. There's a real difference. 22 and I'm going to say that again, that we should not be 22 Q. Well, I want to move on and don't have a whole 23 the model for this. I mean, we've got to think about 23 lot more, but I'd like to move on now. We've been 24 talking a lot I think about effect and how this bill 24 people who are in other circumstances. So I wasn't 25 25 might affect the people. I want to move briefly to the supposed to be speaking personally, but I was supposed 74 76 to be speaking for the Caucus, but yeah, I mean -- I 1 purpose of the bill. 1 2 mean, yes, we all have birth certificates, almost all of 2 Does the Caucus contend that preventing 3 3 in-person voter fraud is not the purpose of Senate Bill us have passports, but then we're talking about people 4 4 in different circumstances. I just said that you and I, 5 5 other than age, we're probably very similarly situated. MR. TANNER: I'm going to object to the 6 6 That is not the case overall. form of the question and that it calls for a legal 7 7 Q. And while we're on the subject, and I'll move conclusion. You know, purpose is a complex legal 8 on in just a moment, but what are -- if you just remind 8 question that involves a lot of specific factors, and we 9 9 me what the specifics circumstances are that would put can go through those one by one if you like. But I'd 10 10 like to stay away from legal conclusions. You know, someone in a different situation than maybe you or I are 11 11 those are reflected in documents filed by the court. 12 A. I think, you know, beyond the control of 12 MR. FREDERICK: Let me --13 people, if they're elderly, born in a rural area where 13 MR. TANNER: And will he reflected in 14 there might not be doctors and what have you, and where 14 additional documents filed by the court by various 15 there might not be easy access in terms of where they're 15 16 -- where their birth need to be registered, you and I 16 MR. FREDERICK: Fair enough. probably travel internationally a great deal, and so, 17 Q. (By Mr. Frederick) Let me see if -- let me just 17 18 yeah, I would have a passport because I travel a lot. 18 ask you before I move on: Do you understand -- do you 19 So that would -- that would differentiate us. 19 understand my question about the purpose of SB 14, or do 20 We are -- or in my case, I'm a driver, so, 20 you need me to rephrase? 21 you know, I have a DPS -- I have a driver's 21 A. Would you rephrase? 22 license. But we're talking about -- I talked a lot 22 MR. TANNER: Yeah. I think that in terms 23 about the elderly and the very young, African American 23 of form of a question about the purpose of the 24 elderly and very young, which is an area that I know an 24 legislative act would need to be open to the possibility 25 awful lot about. 25 that there are multiple purposes held by multiple

MR. FREDERICK: I understand. I think this has been addressed by the Court as a legal issue in a lot of orders and filings.

Q. (By Mr. Frederick) I want to be clear to you, Representative Giddings, I am -- I do not intend to presume that there is a single purpose. In fact, what I'm trying -- I'm just asking you whether the Caucus contends that there were other specific purposes. So I think my question presumes that there may not be a single purpose.

So what I'm asking is: Can -- does the Caucus contend that there is another specific purpose besides preventing in-person voter fraud behind SB 14?

- A. That there is another specific purpose?
- Q. Yeah.

A. I'm not sure that I can speak for the Caucus on that issue other than to -- to go back to what I said; I mean to say, this bill is not going to do anything for this situation. So I can't say that -- I can't speak for the Caucus on the other part. All I can speak to is, at this point, is just what I said, that the bill doesn't seem to accomplish the stated purpose.

Q. And does that lead the Caucus to believe that there is another purpose behind the bill?

results, what will the result of this be? That's where they hung their hat.

Q. So would it be fair to say then that the Caucus does not actually contend that the legislature intentionally acted to harm African American voters by passing SB 14?

MR. TANNER: We're going to object to the form of the question in that it calls for a legal conclusion for the grounds I've stated before. The contentions of the Caucus are stated in the papers that are filed thus far, and we're happy to answer factual questions about -- you asked about the activity on the Floor. And given the nature of the issues in the case, it would be more appropriate, a more appropriate form of the question to ask whether the passage of the bill satisfied the Caucus, that it was entirely free of any racial or discriminatory purpose or effect.

MR. FREDERICK: John, with respect, I'm going to object on the record. I would ask you not to coach the witness. I believe I understand you need to object, but -- and I appreciate your thoughts on the questions, but I believe that we're getting pretty close to a line. So I would respectfully request that I just be allowed to ask the witness questions. You may certainly object, but I would ask that the witness be

A. Well, I won't say for the Caucus, but it always leads people to ask questions. If the purpose is this and it doesn't accomplish that, then there's always a question of what does it do? And that's not with just this bill, that's with every -- you know, every bill or many bills. So I am not sure, you know, how to answer that, rather than we took it from the opposite end, it doesn't do that, but here's what it is going to do on the other side.

- Q. Has any legislator made any statement that you're aware of that there was another purpose other than preventing in-person voter fraud behind SB 14?
- A. Has any other legislator? I -- now, this -- I'm testifying for the Caucus, for the entity, for the organization, and whether the -- whether or not the organization has any information along those lines, I'm not aware.
- Q. Does the Caucus contend that the Texas legislature intended to harm African American voters by passing SB 14?

MR. TANNER: That's the same objection.

- Q. (By Mr. Frederick) You can answer.
- A. I think what the -- what the Texas legislative Black Caucus did is forget about -- well, I think what the Texas Legislative Black Caucus did is look at

permitted to answer subject to your objection.

MR. TANNER: I'm certainly not trying to coach the witnesses, and now it's getting into legal discussion or legal language in terms of talking to you about it. And the witness has been very forthcoming in answering the questions, and I'm sure we'll continue to

- Q. (By Mr. Frederick) Does the Caucus contend that SB 14 was passed with a racially discriminatory purpose?
- A. I guess if you're not a member of the legislature, this is very hard to understand. We pass lots of legislation, you know, on occasion, that we think is going to do this. And we pass it, and we try to pass it for the purpose of doing that, but sometimes the effect is something else.

I'm personally involved in one of those cases right now which went before a committee that I chaired. We passed the legislation to do this. It's not racially anything to do with this. But now we're finding out that the legislation really -- the effect of the legislation is really this. And so sometimes you deal more with the effect than you do with the purpose and so that's what we've dealt with here is the effect of this legislation, and what it does, what it might do,

what we believe that it will do in terms of African Americans.

So that's not uncommon, not just with the bill, but with lots of bills. I mean, you know, there's a purpose and then there's, you know, what is the -- you know, what is the result of that. And so lots of times we don't concentrate so much on -- we concentrate on what's going to happen if this bill gets passed.

Q. Sure.

A. And that's where we came down. What's going to happen, you know, on African American -- to -- to just people in general and particularly African Americans if the bill gets passed, that's -- that's sort of where we've come down.

And as a legislator, this is probably too much information, you do your best not to try to get into -- it's hard to get into the heads and hearts of people who are trying the pass legislation, but I think -- I think it's fair game when you start to talk about what's the result of this. What's going to happen as a result of this piece of legislation being passed?

Q. I appreciate that. That's -- I mean, that's very helpful, and it kind of -- it helps me phrase the question: What -- I mean, I guess what I'm trying to get at is: Does the Caucus contend that any member of

- voters, some of the people that we represent. We looked at it that way. And also, we had lots of -- lots of communication with lots of people who believed that it was going to have a negative effect on being able to -- to get voters out.
 - Q. And I -- you understand the difference between purpose and effect, right?
 - A. Not in a legal sense, I don't.
- Q. No, no. And I'm not asking a legal sense. Based on your previous answers, I believe you testified that, you know, sometimes when you pass legislation, there's a purpose, and then it might have an effect that you didn't think it would have.
 - A. Uh-huh.
- Q. So I mean in that sense --
 - A. Uh-huh.
- Q. -- you understand the difference between the purpose of a bill and its effect?
 - A. Uh-huh.
 - Q. Is that right?
 - A. (Witness nods head yes.)
 - Q. And all -- and so what I'm -- my question is: In that sense, does -- is it the Caucus's position that there was a racially discriminatory purpose for the passage of SB 14?

the Texas legislature who supported SB 14 did so in order to, you know, have the kind of negative effects on African Americans that the Caucus believes the legislation may have?

MR. TANNER: I think the witness has already answered that question by her statement that that's not the focus of -- of her approach. And again, the legal contentions the Caucus has set forth in the documents and the witness is trying provide as much information as she can about the actual experience of the -- of the legislature.

Q. (By Mr. Frederick) Do you remember the uestion?

A. Yes. And Mr. Frederick, my answer is going to be the same, because, you know, I'm very -- very sincere about that. I mean, there are lots of times when you just -- you have to -- you have to look at the results of something, and not the purpose, and I can't get into another legislator's head, and they can't get into mine. I've passed pieces of legislation that I thought the purpose was this, and the result was that.

And so it's -- it's the same, it's the same with this. I mean, that's how I personally looked at it, and I think that's how the Caucus looked at it is, you know, what effect will this have on some of our

MR. TANNER: That --

Q. Racially discriminatory purpose?

A. Is it the Caucus's contention?

A. If there was a what?

Q. Correct.

A. I -- I'm not -- I can't answer that any other way than -- than I've answered it and not because of this, but just because that's the way in a lot of cases we measure legislation. I'm dealing right now with the lease purchase that came through my committee. The intention was to help some people over there who had gotten in bad situations and never got deeds. The effect was we pretty much closed down lease purchases in the state of Texas. So the effect was we pretty much closed down lease purchases in the state of Texas. So that was the effect, wasn't my bill, somebody else's, that was the effect of that legislation.

And so that's what we -- that's basically what I try to deal with is effect. You know, what's the real effect? The purpose might be this, but when you put it all together, this is what the effect is going to be.

Q. The lease purchase bill that you mentioned, I mean, despite its effect, you can say that the purpose was something else and it had this different effect,

93 95 1 Q. -- would the Caucus still contend that SB 14 1 Texas, has an effect on how many African American people 2 would have a negative effect on African American turnout 2 vote; is that accurate? 3 on voting participation? 3 A. I think that's right. 4 MR. TANNER: Or has the Caucus taken a 4 Q. And so it seems to me, based on that testimony, 5 that even -- you know, even if SB 14 didn't exist, that position to that? 5 history might have some effect on African American 6 A. Well, I was -- I was going to say there, 7 7 Mr. Frederick, that if I'm speaking here for the Caucus, turnout, African American voting; is that right? 8 8 I can't answer that question. Because number one, we've A. I think that that history has an effect today, 9 9 never believed that, and therefore, we've never had any if that's what you're asking me. Does that history have 10 discussion that would lead us to be able to answer the 10 an effect today? Yes. - 6 A. Let me check. I'm sure it did.
- Q. Okay. And let me turn your attention back to the 7

- 10 Q. Can you tell me what the allowable forms of ID
- 11 are under SB 14?
- 12 A. Okay. In this version of Senate Bill 14 a
- 13 driver's license, election identification certificate,
- 14 personal identification card issued from Department of
- 15 Public Safety that hasn't expired or that expired no
- 16 earlier than 60 days before the date of presentation, a

- think this -- that's it. 1
- 2 Q. Now, previously during your deposition we went
- 3 through HB 1706 which was sponsored by Representative
- 4 Denny and others. We went through HB 218 and we went
- 5 through SB 362. Would you agree that the allowable
- 6 forms of ID in SB 14 are different than the allowable
- 7 forms of ID in the bills that I just referenced?
 - A. Hold on let me check. Well, let me look at them.
- 9 They all have a driver's license, they have a personal 10 identification card.
- 11 Q. But is it accurate to say that the driver's
- 12 license in SB 14 has an expiration date of no more than
- 13 60 days and the driver's license in all of the other
- 14 referenced ID bills has an expiration date to be
- 15 presented no more than two years?
- 16 A. Yes.
- 17 Q. And do you have an opinion as to -- strike that.
- 18 I think that's been asked and answered actually. Do you
- 19 see any -- any other differences as we're describing
- 20 this for the record, between SB 14 and the other bills
- 21 that I've referenced?
- 22 A. The United States military ID in Senate Bill 14
- has an expiration date. I don't see in 1706, 218 or 23
- 24 362 -- let's see, citizenship certificate date is that
- 25 on all of them. It's on that one.

159

- Q. Well, let me ask a specific question to help you
- 2 out. Does SB 14 allow for identification for a student
- 3 identification card issued by public or private
- 4 institution of higher education that contains the
 - person's photograph?
 - A. It does not.
 - Q. Do you know why -- what the basis of the change was between the 2007, 2009 and HB -- HB 12 -- SB 14?
 - I'm sorry.

MR. McKENZIE: I didn't mean to talk over you. I'm going to object to the extent that it reveals private communications that are not public or to the extent it reveals personal reflections that are not public and factored into your decision to vote. If it reflects public record or a general legislative purpose

you may answer.

- 18 Q. The question is what's the basis of the change 19 from the previous voter ID legislation and SB 14?
 - MR. McKENZIE: Same objection.
 - A. I don't know. I'll answer. I don't know because
- 22 I wasn't a member for any of that. I'm not familiar
- 23 with these three. This is the one that I'm familiar

- 1 Q. Was there public debate regarding the removal or 2
 - the decision not to include student identification cards
- 3 issued by public or private institution in SB 14 that
- 4 you can recall?
 - A. Yes.
- 6 Q. And what was the subject matter or the substance
- 7 of that public debate?
- 8 A. I don't know who was talking, but I remember the
- 9 conversation was that it would be difficult for an
- 10 election judge to recognize a valid student ID because
- 11 there were so many different forms. That's what --
- 12 that's the discussion I remember on the floor.
- 13 Q. Are you aware of any personal -- are you 14
 - personally aware of any voter impersonation allegations
- 15 by students who have used student identification? 16
 - MR. McKENZIE: I'm going to object to the extent that you acquired that knowledge in furtherance
- 18 of your duties of the Legislature. You may answer it to 19 the extent you didn't acquire knowledge that way or it's
 - a matter of public record.
- 21 A. I don't have any knowledge.

The only other criteria is must be an active or a suspense voter. Q. Okay. So individuals who are in the live check status were not part of the match? A. Give me a minute. I do not recall, but I see some reference on Exhibit 971 where the analyst did not find any live check match records. Q. Okay. So the alternative to active and suspense is an individual in a live check status? A. Possibly cancelled. Q. Okay. And what is your understanding of what live check status means? A. Live check status is the part of the process where we're confirming the information on the individual. Q. Okay. And what is a cancelled voter? A. But the second number doesn't match any of the queries, correct? A. That is correct. Q. Okay. But it appears that this is simply a filter of query 1, but the sorry, strike that. Let me try and get that out making a little bit of sense.
